

TeachTown enCORE Step Three to Get Started

How to Set Levels and Units for Students

Select a student in your account.

- □ Select Configure Academic Level from the drop-down
- □ Select the Level and Unit for the student
- □ Complete these steps for ALL of your students

	Teacher: Training Account Student: Jennifer Test		Log out
Home Manage Recommended Lessons	<u> </u>		
The enCore curriculum consists of a series of Units. Each Unit consists of one or more Books and each Book contains several interactive lessons. These lessons are divided into three Academic Levels based on difficulty: Participatory, Supported, and Independent.			
This table displays the lessons that the program currently recommends for your student. You can alter these recommendations customizing the Academic Level for your student and then by selecting which unit your student should work on next.
